The Training Analysis Specialist

Course code: HR67 From: 01-12-2024 Venue: Online - Course Fees: 1250 £

Introduction

Training Analysis is a novel and exciting topic in today's world-class training roles.

This Training & Development course covers all of the major research areas, including training measurement and evaluation.

Information presented will allow shareholders to not only have a better practical approach to training but also to fully understand how things work and are measured and how all training activities can be costed and measured using a new range of tools and techniques.

Representatives attending this course will be given tried and tested practical examples so that the knowledge gained can be applied immediately in the workplace.

These devices are required for any training function, especially if attendees want to add value or consider becoming a profit center.

Features of this course include:

- Learning about training models for training efficiency
- Analyzing and measuring to show training results in your organization
- Constructing training & learning activities
- Becoming a learning organization
- Learning from practices in top companies that surpass the "Best Practice"

Course Objectives of The Training Analysis Specialist

At the end of this course, shareholders will be responsible for:

- Measure the effectiveness of training, using evaluation models
- Analyze delivered training and be able to demonstrate training efficiency
- Demonstrate how training can financially benefit the organization
- Measure Knowledge, Skills & Attitude (KSA)
- Describe how people learn and how to overcome barriers to learning

Course Methodology of The Training Analysis Specialist

This course will use a variety of proven adult learning techniques to ensure maximum understanding,

comprehension, and retention of the information presented. This includes stimulating presentations supporting each of the topics together with interactive trainer lead sessions of discussion.

There will also be many practical sessions where participants can practice and experience course-related activities. Practical exercises, case studies, short video presentations, small group work, and feedback will be used to facilitate learning.

Organizational Impact of The Training Analysis Specialist

The real cost of training is very high - in today's business world, every organizational activity should be measured, and its contribution to the business made obviously - it is unacceptable not to be ready to do a proper analysis.

- Organizations using these techniques will get more for their training-spend
- It provides an efficiency audit trail on how training resources are spent
- It can provide a basis for how training is funded
- Delegates attending this training seminar will be able to implement their knowledge immediately upon returning to the workplace
- As this is a training course with a big ROI, the simple question is: "Can you afford not to do this?"

Personal Impact of The Training Analysis Specialist

Those participating in this course will be ready to:

- Find out how to analyses and evaluate training
- Attain a skill that very few people currently possess
- Be able to use the latest proven techniques and models
