Mastering Project Management

Course code: PQ139 From: 25-11-2024 Venue: London - Premier inn Victoria Course Fees: 4445 £

Introduction

In today's world, where projects are growing in size and complexity at an exponential rate, mastering project management is more important than ever. With the implementation of cutting-edge technologies, the development of multi-national collaborations, and thus the demand for previously unattainable levels of production, safety, and quality, project management has had to take a quantum leap forward.

This Mastering Project Management training course examines the fundamental principles of project management that serve as the foundation of every successful project and identifies the key characteristics required to become a project management master. Project leaders and managers will never become true masters of their profession unless they fully understand and apply the skills required to effectively plan and execute projects in today's fast-paced, high-tech, and multi-faceted environment. This Mastering Project Management course takes the fundamentals of project management to the next level by identifying how projects have evolved and applying the most recent tools and techniques to help to exist and aspiring project managers become true project management masters.

This training course will highlight:

- Understanding the elemental principles of project management
- Project strategizing and strategic planning
- Controlling projects and management of change
- Risk identification, analysis, and control
- Project leadership and stakeholder management

Course Objectives of Mastering Project Management
