## Pensions, Governance & Regulation

Course code: AG12 From: 29-12-2024 Venue: Cairo - InterContinental Cairo Semiramis Course Fees: 2750 £

### Introduction

This Pensions, Governance & Regulations training course gives a content-rich, immersive, and interesting training expertise covering pensions, attendant risks, competitive pressures, adverse stock-market, and societal aims, pensions marketing, and the regulatory / governance framework which supports them.

It investigates the origins, underlying philosophies, risks, public policy, social policies, the scale between state pensions and special provisions, intergenerational honesty, affordability, and taxpayer interests. Given the current rate of medical advancement, lifestyles, the labor market, technological advancement, Artificial Intelligence, robotics, mortality, morbidity, investment performance, asset selection, and evolving approaches to pensions versus alternative forms of investment, this is not surprising.

### This training course will highlight:

- How to judge the current pensions and investment landscape across different geography
- Judging best ways re pensions marketing, governance, risks, investment, taxation
- Continuing competitive as a pensions provider within changing marketplaces
- The balance between private and public pensions provision / Pension Tech / RPA
- Demographics, employment, attack and social class related to pensions and governance
