Accounting and Budgeting for Public Sector

Course code: PM167 From: 01-12-2024 Venue: Cairo - InterContinental Cairo Semiramis Course Fees: 2750 £

Introduction

This cutting-edge Accounting and Budgeting for the Public Sector training course is designed to provide you with an in-depth understanding of the underlying principles and critical functions in the ever-changing world of public finance. Non-financial public sector employees and managers are frequently asked to participate in the budget process as well as respond to information presented in departmental financial reports.

This training will be a useful refresher and update for public-sector finance professionals, as well as a good practical introduction for non-financial managers. The training course also includes a refresher on International Public Sector Accounting Standards Board (IPSASB) standards, as well as recent developments in the field of New Public Management, with a particular emphasis on the reasons for and approaches to New Public Financial Management.

This training course will highlight:

- The context for public sector financial decision-making
- The distinctive characteristics of public sector financial statements
- Analyzing and interpreting public sector financial reports
- The objectives and methodology of public sector budgeting
- Capital investment appraisal and outsourcing decisions
- Public-Private Partnerships (PPP) and Private Finance Initiatives (PFI)
- Public sector management reforms

Course Objectives of Accounting and Budgeting for Public Sector

This training course was designed to provide participants with up-to-date knowledge and practical skills in the preparation and interpretation of public sector financial statements and budg

By the end of this training course, you will have learned to:

- Comprehend the function of financial accounting in public sector management
- Organize accounts by IPSASB framework
- Examine and analyze public sector financial reports
- Use forecasting techniques to plan for income and expenses
- Understand and actively participate in the budget process
- Comprehend and apply capital investment appraisal methods

Course Methodology of Accounting and Budgeting for the Public Sector

The training course will be structured as a highly participative workshop with standard presentations, case studies, and interactive work samples. Appropriate models and case studies are provided to demonstrate the application of each of the topics covered and opportunities are provided to understand and apply the key financial accounting and budgeting regulations using practical samples and practices.

Organizational Impact of Accounting and Budgeting for the Public Sector

The organization will benefit from the development and practical application of skills in financial accounting and budgeting in compliance with the requirements of the IPSASB framework. This will deliver benefits in raising awareness of key financial principles and improving decision-making.

The organization will specifically benefit from:

- Up-to-date knowledge of the requirements under the IPSASB framework
- Raised level of awareness of key public sector finance issues
- Development of up-to-date accounting and budgeting techniques
