Quality Assurance and Quality Control

Course code: PQ198 From: 13-10-2024 Venue: Istanbul - Radisson Blu Hotel, Istanbul Sisli Course Fees: 4445 £

Introduction

This Quality Assurance and Quality Control course is designed to improve delegates' quality assurance and control skills and provide them with the best practices for implementing various quality programs, such as Total Quality Management (TQM), within their organization. Quality assurance and control are essential components of a quality management system because they ensure that the product or service meets the customer's expectations.

Quality assurance and control systems guide organizations' principles, methods, and best practices in order to achieve excellence in everything they do. Quality management is a leadership practice that has a positive impact on the entire workplace. Effective leaders lay a solid foundation for developing truly committed employees with high morale and improved performance. By providing employees with opportunities for participation, problem-solving, and teamwork, effective leaders instill a sense of motivation in each employee.

This training course focuses on the following themes:

- Cultural Change for Successful Quality Assurance and Control Best Practices Implementation
- Quality Management as a fundamental business strategy
- The Importance of Leadership involvement in the Quality Management Process
- The Impact of Team Dynamics on the Effectiveness of Organizational Improvement Projects
- Various Excellence Models

Course Objective of Quality Assurance and Quality Control

By the end of the course, the participants will be able to:

- Define the major benefits to the organization of Total Quality Management
- Understand the impact of leadership to support quality management systems
- Describe how TQM can be introduced into their workplace
- Discuss the importance of quality standards, models, and awards (ISO, TQM, Malcolm Baldrige, EFQM, etc.)
- Identify useful quality improvement techniques for continual improvement
- Develop measuring and improvement processes for quality assurance and control

Training Methodology of Quality Assurance and Quality Control
