Joint Venture and Other Collaboration Agreement for the Oil & Gas Industry

Course code: JV72 From: 30-03-2025 Venue: Manama (Bahrain) - Fraser Suites Seef Bahrain Course Fees: 3450 £

Introduction

A Production Sharing Contract (PSC) is used in key oil and gas-producing countries, each of these has different approaches and levels of complexity. These complex agreements contain several clauses with specific legal interpretations and fiscal formulas. As a result, it is critical to have a thorough understanding of the terms in order to correctly calculate the formulas and ensure a smooth agreement implementation.

Delegates will gain a solid understanding of the fundamentals of Production Sharing Contracts (PSCs), as well as Joint Operating Agreements (JOAs) negotiation techniques and strategies that work in international and multicultural settings, during this training. Delegates will also learn how to negotiate effectively with counsel and how to get the terms negotiated incorporated into an enforceable agreement.

The five-day Operation in Partnership Joint Venture and Production Sharing Contract training course is specifically designed for professionals involved in the oil and gas industry both nationally and internationally. It provides a unique opportunity to quickly increase your understanding of the legal issues involved in Production Sharing Contracts (PSCs) and Joint Operating Agreements (JOAs) in various international scenarios, as well as to improve your techniques and skills.

This course will highlight:

- Evolution of the Production Sharing Contracts (PSCs), Service Agreements and concessionary systems
- Joint Operation Agreements (JOAs)
- Comparisons of model Production Sharing Contracts (PSCs) in various countries
- Negotiation techniques and the role of counsel
- Explanation and analysis of key provisions to make the Production Sharing Contract (PSC) work

Course Objectives of Joint Venture and Other Collaboration Agreement for the Oil & Gas Industry

By end of this course, delegates will be ready to:

- Understand the evolution of the Production Sharing Contracts (PSCs), Joint Operation Agreements (JOAs), and Service Agreements
- Learn the negotiation techniques and the role of counsel
- Differentiate the comparisons of model Production Sharing Contracts (PSCs), in various countries
- Identify and analyses the key provisions to make the Production Sharing Contract (PSC), work

- Know the Production Sharing Contracts (PSCs), arrangements within the host government contracts framework
- Avoid commonly occurring causes of disputes and to gain knowledge on International Dispute Resolution Framework and Institutions: how to negotiate arbitration clauses
- Understand the common problems and pitfalls in negotiating Production Sharing Contracts (PSCs)

Course Methodology of Joint Venture and Other Collaboration Agreement for the Oil & Gas Industry

This interactive training course on Working in Partnership Joint Venture and Production Sharing Contract will provide the participants an ideal opportunity to improve and sharpen their skill sets in planning, negotiating, and managing Production Sharing Contracts (PSCs), Joint Operation Agreements (JOAs) through an interactive session with role-playing, case studies, discussion groups, and scenario building and the high-point of the training course being a simulation exercise of Production Sharing Contracts (PSCs) and Joint Operation Agreements (JOAs) negotiation involving interactive role play by the participants. The objective of the interactive role-play is to enable participants to apply the knowledge and understanding gained at the workshop to negotiate a more effective Production Sharing Contracts (PSCs) and Joint Operation Agreements (JOAs). This will help participants gain practical insights into managing the risks and enhancing their rewards.
