The Marketing Intelligence

Course code: MS109 From: 19-08-2024 Venue: Madrid - Petit Palace Alcala Torre Course Fees: 4445 £

Introduction

This course is designed to provide marketing professionals with the marketing tools they need to boost sales, maximize the return on marketing dollars, and strengthen customer loyalty. Marketing research describes what is happening as it happens, so you can react tactically. Market intelligence provides situational insight and interpretation, allowing you to plan ahead of time. This training course will help you become acquainted with both basic and cutting-edge marketing research design and analysis techniques and procedures. You'll learn how to identify underlying business issues, create a research plan, collect data, and analyze the results.

Simply stated, market intelligence is the use of multiple data sources to create a comprehensive picture of a company's existing market, customers, problems, competition, and growth potential for brand-new products and services. Market intelligence provides numerous competitive advantages, and the risks of not investing in such data are frequently significant. The primary learning objectives for this Global Horizon Sales & Marketing training course on marketing research and intelligence will be especially beneficial for delegates in charge of planning sales and marketing initiatives to increase revenue growth.
