# Managing Corporate & Islamic Finance and Corporate Governance

Course code: AG11 From: 01-12-2024 Venue: Sharm El-Sheikh (Egypt) - Course Fees: 2750 £

## Introduction

This fundamental and exciting Managing Corporate & Islamic Finance and Corporate Governance training course allows you to know how to expand access to finance, improve your corporation's financial situation, and develop corporate governance in it and thereby allowing you to defend your organization from any un-ethical effects and rise your stakeholders' value.

Managing corporate finance is broadly concerned with maximizing shareholder advantage by planning how to best grow money and use it efficiently, as well as managing critical finances and their sources. Corporate finance exercises deal with financing, asset structuring, and property decisions.

The use of the most suitable financing and the techniques necessary to achieve imperative financial objectives now frequently include Islamic finance, the fastest-growing element in the finance sector. Islamic finance follows Islamic law (sharia) and is governed by both Sharia and the financial armies' rules that govern conventional banks.

Corporate governance is recognized as necessary for organizational effectiveness, it is not only involved with the maximization of saving but also is an effort to make sure that companies are managed and controlled according to ethics, which are admissible by the whole community.

## This training course will highlight:
